

Guide to creating a pool account and creating workers

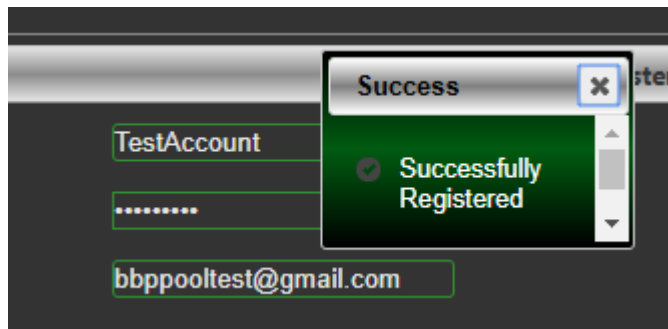

1. Use your browser to navigate to <http://pool.biblepay.org/>
2. Click "Register" to create an account.

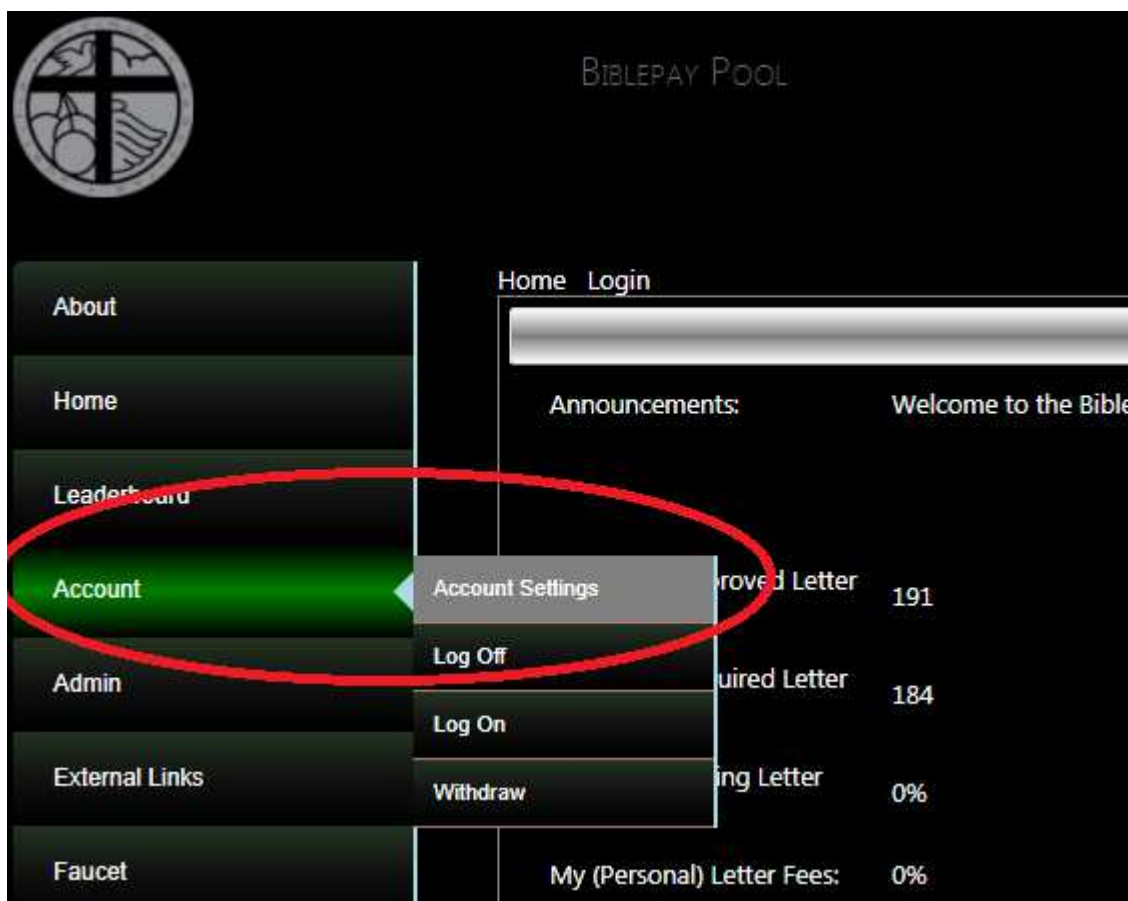

3. Enter a username, password, and email address, then click "Register".

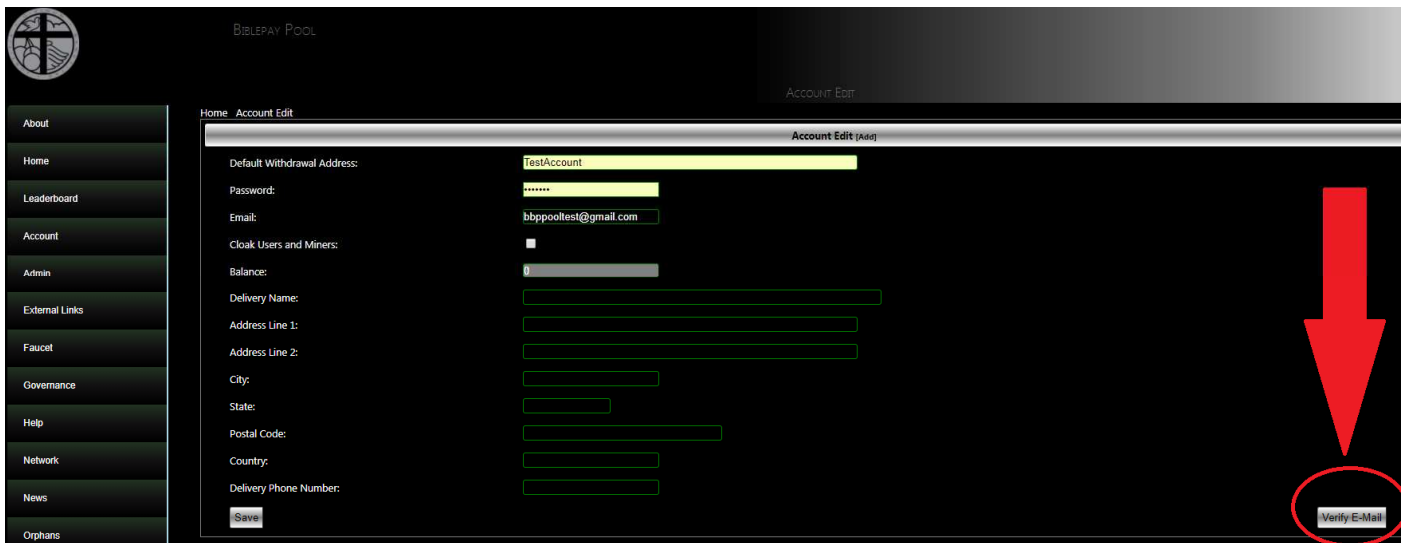

4. You should receive a pop-up window like the one below

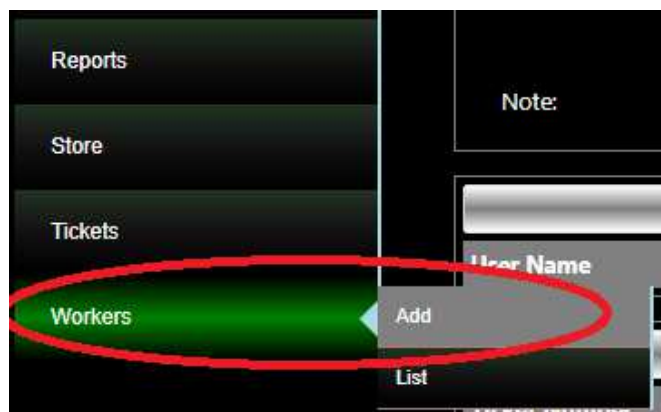

5. Close the pop-up window. Use the menu on the left to navigate to "Account", "Account Settings". Note that you may need to sign in at this stage using the account just created.

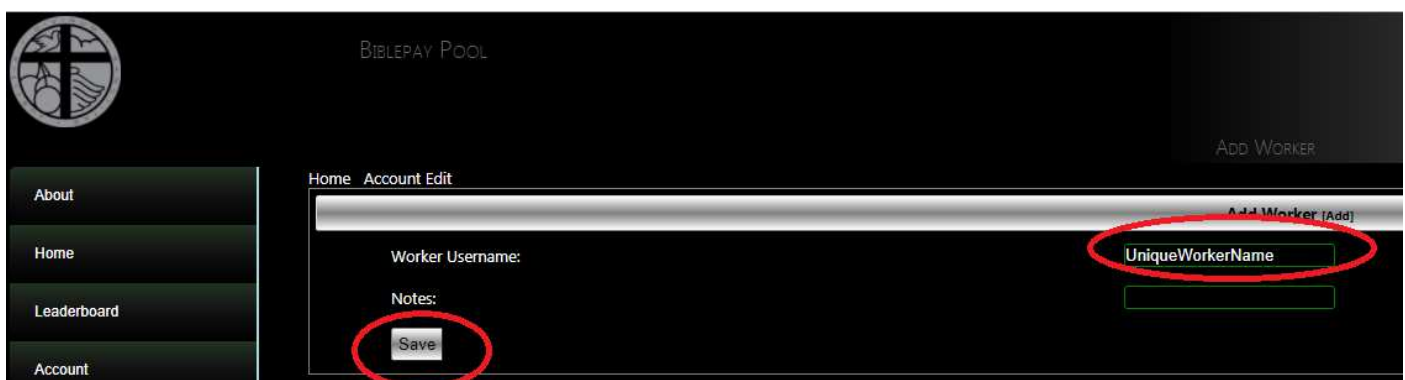

6. In the bottom right corner, click “Verify E-Mail”. Check your email inbox and click the link in the email to validate your address.

7. To create a worker for mining: in the menu, navigate to “Workers”, “Add”

8. In the “Worker Username” text box, enter a unique ID for your mining worker. You can optionally add “Notes” to the worker using the text box provided. Click “Save” to register your worker on the pool. This “Worker Username” will be referenced when you set up your BiblePay wallet for mining.

9. You may create as many unique workers as you like by repeating steps 7 and 8 above.
